Careers News

November 2026

October was a very busy month in the Careers Department, starting with visits to Telford College and Wolverhampton University. We then visited Ricoh with Y10 for an experience of the workplace, learning about the business and industry of manufacturing.

We finished the month with the annual careers fair for students in Y9-11. Over 30 local providers of post-16 courses came to give students advice and information about the courses they offer.

November hosts Green Careers Week, which is a great opportunity to learn more about sustainable and environment-focused jobs. Get involved during tutor time and visit www.greencareersweek.com for loads more information!
